

Dear Wal-Mart/Sam's Club ODs,

As an insurance administrator for Optometry since 1984, "USI Optometric" is proud to provide a superior insurance program on a nationwide basis to the Optometric field. We offer an annual, occurrence-based policy with standard limits of \$2 million per occurrence/ \$4 million aggregate through Zurich North America Insurance.

SERVICE IS OUR STRONG SUIT!

***Specifically for Wal-Mart ODs, USI offers the Professional and General Liability for limits \$2mil./4 mil. on one policy, naming Wal-Mart Stores, Inc. as an Additional Insured/Certificate Holder. Coverage offered nationwide. Please call for an application and quote! #800.621.8412**

We have an experienced staff with the appropriate knowledge and expertise in optometry to assist ODs in establishing policies that meet their insurance needs. In recent months, we have recognized some significant changes in the optometric insurance industry. As multiple insurance carriers have pulled out of optometry in the last few years, USI wants to reaffirm our commitment to the Optometric Community. We have special programs for:

- Independent Contractors and Employees
- Optometric Professors and Teachers
- Volunteer ODs: both teaching and performing duties within the optometric scope
- Individual OD coverage naming a corporation as and Additional Insured
- Packages for a business/malpractice policy with 1 or more corporations combined
- ODs with any existing incidents
- New Graduate credit available

With Zurich's long-standing, committed relationship to USI, we will work with every optometrist to identify your specific needs.

Additionally, we are revamping our website to improve service and interaction with our firm. Look forward to www.usioptometric.com for a dynamic new look – coming soon!

Thank you very much for your time. Feel free to contact me if you have any further questions regarding our program and/or the insurance marketplace.

Regards,
Katie Carroll
